Recruitment

Risk Based Internal Audit

- Riskpro provides flexible internal audit services on out-sourced basis or as an integral part of your organization or both.
- Our services are top class and provided by knowledgeable professionals with deep industry expertise.
- Riskpro has a team of experienced internal auditors in major cities across India.

Legal Compliance Audit

- Regulations and legal / compliance burden is affecting organizations of all sizes and across industry sectors.
- Riskpro, along with its member firm, has developed an effective and comprehensive Legal and Compliance Audit (LCA) procedure which ensures that your organization is periodically reviewed for non-compliance and process gaps.

Enterprise Risk Management

- Riskpro has strong domain expertise when it comes to Enterprise Risk Management ranging from Financial Services to specialized manufacturing businesses.
- We have unique ERM Methodologies and develop ERM Frameworks using COSO ERM and ISO 31000 helping with Risk Assessments and building key risk metrics ensuring a successful project. We also help with the SEBI LODR's Risk Management Compliance as per the recent regulations of 5th May 2021.

Internal Financial Controls (IFC)

- Internal Controls are the backbone of any organization.
- Riskpro helps to develop a framework for assessing and reporting on the operating effectiveness of the internal controls, Gap Analysis and adequacy of internal control documentation.
- We help with all your SOP and flowcharts in place and a mechanism to test these controls.

Operational Risk Management

- Riskpro can review risk management structures & infrastructure
- We develop operational risk policies, frameworks, terms of reference and implementation project plans.
- Development of Risk Control Self Assessment (RCSA) methodology and Risk Register
- Review and enhancement of Loss and Event Reporting framework
- Comparison done against best practices of risk modelling, strategic objectives and regulations.

Third Party Risk Management (Due Diligence/ Vendor Audits)

- Design and implementation of TPRM policy and framework, Standardized and customizable checklists for regulatory compliance, Advisory and support for vendor due diligence and onboarding, Vendor risk assessment, categorization and KRIs, Vendor contract review and lifecycle management
- Vendor audit as a service across risk type like data privacy, IT risk, cybersecurity, physical controls and financial risks. Integrated risk assessment, measurement and reporting using our TPRM platform

Branch Audits

- Riskpro has done PAN India checklist-based audits for the depots, branches of NBFC, Insurance companies etc. through our associate firm.
- We design a standard checklist which reflects regulatory, conduct issues and operational compliances. We ensure:
 - Compliance to the checklist defined and the laid down policies and procedures.
 - Report the process gaps, operating inefficiencies, non compliances with applicable laws, handling of conduct issues etc. and issue final report with recommendations.

Integrity and Ethics

- Riskpro has expertise in developing a comprehensive Anti-Bribery & Corruption (ABC) compliance program that would ringfence your organization from the risk of corruption, fraud and other ethical misconduct.
- Our program implementation takes minimal time as well cost effective. It encompasses broadly four elements - Risk assessment & governance; Investigations & enforcement; Training & Communications and Monitoring & Auditing

Fraud and Forensic

- Riskpro helps companies to perform a gap analysis and undertake a comprehensive fraud risk assessment.
- Our forensic accountants delve deep into the facts to provide an independent, thorough, and insightful report of the situation and help with fraud investigation and unearth important aspects of the fraud.
- Other Fraud related services include Fraud Detection, Anti-Fraud Measures and Background checks

Standard Operating Procedures (SOP)

- Standard operating procedures (SOPs) are the documented processes that a company has in place to ensure services and/or products are delivered consistently.
- Riskpro reviews the Internal Control Framework across all SOPs, recommends the control gaps and benchmarks to best practices.
- We also provide Offsite support to enhance existing SOP documentation.

Social Media Risk Management

- Riskpro India has developed a comprehensive and customized “Social Media Risk Management Policy”.
- The policy defines the roles and responsibilities, Social Media Risk Management process, Social Media guidelines, HR policies relating to social media etc.
- Our policy reports and monitors framework of specific risks relating to Social media.

Compliance, Governance, Insider Trading Prevention, Anti-Money Laundering, Anti – Bribery

- Riskpro helps in reviewing of existing mechanism and doing gap analysis.
- Drafting Compliance Policies /reviewing Existing Policies, Support to Compliance and Risk Awareness Program by way of regular training, supplying questions for awareness contests, updating monthly bulletin / literature etc.
- Retainership for providing regular support (1 week per month or 15 days per quarter). Training can be provided as per the company requirements from 1-2 hours upto 15-16 hours.

Market, Credit and Liquidity Risk Management

- Setting Market / Credit Risk Model including stress testing.
- Drafting / reviewing existing Investment / Risk Management / Credit / Market / Liquidity Risk Management Policy,
- Reviewing existing mechanism in line with the regulatory requirements from RBI / SEBI / IRDAI and doing gap analysis.
- Retainership for providing regular support (1 week per month or 15 days per quarter)

Environment, Social & Governance (ESG)

- Avoid Green Washing and become genuinely ESG compliant, aligning to UN SDG-17 goals, EU CSRD and equally across E, S and G pillars.
- MRV (Measuring, Reporting & Verification) is the essence of our offering. At Riskpro we handle markets for North American, EU, Asia-Pacific related to Regulatory or Voluntary disclosure.
- Going further, Riskpro has partnered for a “Just Green Certification” where justice is as important as compliance and a 5-level Green Maturity Model.

Our Service Verticals

Recruitment

SSAE 21 (SOC Audits)

- Organizations continue to outsource parts of their business to realize potential cost benefits, to alleviate the need for hiring or retaining internal specialists.
- The effective date for SSAE No. 21 is June 15, 2022 which was issued by the (AICPA) in September 2020. The new standard is applicable to all practitioner's reports dated on or after June 15, 2022.
- Riskpro has done more than 100+ SSAE engagements and we have an inhouse CPA to perform these attestations.

GDPR

- GDPR is a sweeping change. Effective May 2018, if you are not ready, you will not be able to do business, if you hold Personal data of any EU citizen and are not GDPR compliant.
- This may be as simple as an email in a marketing email list. You will not be able to send marketing mailers unless there is explicit consent or a lawful purpose/ legitimate business purpose.
- If you are recruiters, you will not be able to forward the CVs, download and save candidate data without their consent.

Digital Personal Data Protection Act (DPDPA)

Riskpro has a strong team of experienced and certified data privacy and data protection professionals who have thorough industry and technical knowledge and can assist you with:

- Highlighting gaps in your framework/ policies/ processes and suggest an effective mitigation plan.
- Ensure the controls/ framework defined are adequate and in accordance with DPDP Act requirements.
- Define and/or implement the Act compliant data protection governance framework.

ISO 27001

- ISO 27001 specifies a management system that is intended to bring information security under management control and gives specific requirements.
- Riskpro helps to review current practices against ISO 27001 requirements and establish frameworks to address Information Security.
- We carry out a self assessment review of your ISMS implementation against the requirement and issue a review / certification report.

Cyber Security Advisory

- A company should adopt leading framework to evaluate their preparedness against cyber risks.
- Riskpro helps companies to develop a board approved Cyber Security Policy and Cyber Crisis Management Policy.
- We can develop Key Risk Indicators to track risks and preparedness.
- We conduct Periodic cyber risk audits.
- We also provide cyber security services for Urban Cooperative Banks and for other BFSI sectors.

SOX Compliance

- In 2002, the United States Congress passed the Sarbanes-Oxley Act (SOX) to protect shareholders and the general public from accounting errors and fraudulent practices in enterprises, and to improve the accuracy of corporate disclosures.
- An Audit of Internal Control over Financial Reporting performed in conjunction with an audit of financial statements.
- All public companies now must comply with SOX, both on the financial side and on the IT side.

HIPAA Compliance

- Companies that deal with protected health information (PHI) must have physical, network, and process security measures in place and follow them to ensure HIPAA Compliance.
- We perform gap assessment and give a gap report against HIPAA compliance.
- We help with documentation, fixing documentation related gaps.
- We help with security consulting and implementation support and provide HIPAA Compliance Report.

PCI DSS

- PCI Security Standards Council (PCI SSC) maintains data security standards for the payment card industry under a single framework of Payment Card Industry Data Security Standard (PCI DSS).
- **Riskpro is now listed on PCI DSS website.**
- Riskpro can help with Scope Definition, PCI DSS Gap Assessment, Security Check, Remediation Support, PCI DSS Assessment And Certification, PCI DSS Annual Maintenance and PCI DSS Awareness Training.

IT General Controls (ITGC)

- Riskpro assists organizations in designing ITGC frameworks and provides operating effectiveness assurance through ITGC audits.
- We have dedicated IT audit professionals having experience working with a wide variety of industries of all sizes to mitigate ITGC risks within your IT environment.
- Our ITGC services are tailored to the organizations risk appetite and compliance requirements.

Technical Security Testing and VAPT

- Riskpro provides comprehensive examination of your infrastructure to identify potential vulnerabilities.
- Our approach is tailored to your organization's unique environment, as we adapt our methodologies to cover networks, applications, and cloud systems.
- Our services align with industry standards, ensuring you meet compliance requirements such as SOC2, PCI-DSS, and ISO27001.
- We prioritize identified risks, enabling you to focus on addressing the most critical vulnerabilities first.

Business Continuity/ Disaster Recovery

- Riskpro helps with project initiation and management and risk evaluation & control.
- We develop continuity strategies and help in the disaster stages & process management by developing and implementing the Business Continuity Plan.

CMMC

- Cyber Security Maturity Model Certification (CMMC) Framework is the latest development in IT Security in USA.
- It provides assurance to the DoD that a DIB contractor can adequately protect CUI. Mandatory for any organization/company who wants to do business with DoD.
- Riskpro assist companies with expertise and guidance in achieving CMMC. Riskpro can support an organization through implementation to certification and continuous work with security.

21 CFR Part 11

- Riskpro helps with the 21 CFR Part 11 requirements for Electronic records and Electronic signatures to the companies related to Life science community and other FDA regulated industries to ensure adequate maintaining of document security and authenticity.
- We can help with the 21 CFR compliances like GAP assessment, Computer System Validation (CSV), Auditing services, Healthcare and Life Science Offerings like HIPAA, ISO 27001, SOC etc, Recruitment, Training & awareness.

NIST Compliance

- NIST guidance provides the set of standards for recommended security controls for information systems at federal agencies. The NIST guidelines and recommendations will help federal agencies ensure compliance with other regulations, such as HIPAA, FISMA, or SOX.
- We can help with the Gap Assessment against NIST / FISMA Framework, Consulting/ implementation support and Report / Compliance Letter issued by Riskpro.

Microsoft SSPA

- The Supplier Security and Privacy Assurance (SSPA) is an assessment for Microsoft suppliers/vendors who process their data on their behalf.
- Riskpro provides assistance in consulting as well as responding to the DPR questionnaire.
- Riskpro has an inhouse CPA that performs DPR audits incase you are in high risk profile and independent audits are required.

Data Analytics

- Data analytics refers to qualitative and quantitative techniques and processes used to enhance productivity and business gain.
- Riskpro offers comprehensive data analytics services to convert historical and real-time, traditional and big data into actionable insights for you to take timely corrective actions if necessary.
- We proactively identify the indicators of frauds and trigger automatic resolution.

Vendor Risk Assessment

- We perform end to end vendor risk assessments for top material IT and Non IT Vendors. The assessment is performed as per the established client Vendor Risk Management Framework which covers Information security & Business continuity risk, Data Privacy risk, Physical Security & Environmental Safety, Access & data control, Security Awareness, Endpoint security, Application security, Cloud security
- We have about 12 to 13 TPRM service offerings. We have a multi city network of associates in India.

Cybersecurity Audit

- Cybersecurity audits include conducting a comprehensive assessment of information systems to evaluate compliance and identify gaps in security policy implementation.
- Riskpro offers Cybersecurity audits for second-party audits as well as third-party audits in adherence with industry and global compliance standards.
- Riskpro assists in all areas of Cybersecurity audit including drafting the Audit plan incorporating relevant areas for the organization such as Cloud, Network, Data Security, Network, Facilities, BC-DR, etc.

Technology

Trainings

Recruitment

Internal Audit Software

- Riskpro has partnered with technology companies to provide various software to clients.
- Audit Software provides the following modules as part of the standard offerings:
 - Audit planning
 - Work paper
 - Observations creation
 - Follow up
 - Automated Audit Reporting.

Risk Management Software

- Riskpro has partnered with technology companies to provide various software to clients.
- Risk Management software provides following features:
 - Workflow based system to actively manage and link all Risks, Incidents, Controls, Actions, and KRIs with quick visibility of any status change to remove information latency.
 - It provides evidence and reports to satisfy Regulators that controls are in place and are monitored.

Legal Compliance Software

- Legal compliance can no longer be managed manually in excel and on email.
- The software comes populated with latest compliance library which is updated on a real time basis.
- The software is user friendly – web based and fully secured which is accessible from anywhere.
- Product can be implemented in 1-5 days (Average time)
- Lowest price in India for similar technology

Integrated GRC Software

- Manage Multiple domain of Risk
- Integrated your existing Infrastructure
- Engage your internal and external stakeholders
- Implement quantification to drive business insights
- Configurable Platform/Low Code
- Powerful Advanced Workflow
- Master Control and Regulation Library
- Enhance Risk Visibility and drives accountability for Risk

Third Party Risk Management (TPRM) Software

- Riskpro has a centralized automated solution offering management of all third party vendors under one roof with features like:
 - A collaborative, secure environment for customers/vendors to share information and a well defined access control for key risk management stakeholders.
 - Prioritizes vendors according to the organizational importance.
 - Tracks and monitors ongoing vendor risks.

Contract Management Software

- A Contracts and Obligations Management System would assist you in end to end management of your contracts and obligations.
- Riskpro helps you with,
 - centralized, accurate and quick view of your contracts and obligations.
 - Role based access to multiple users.
 - Efficient management of your contract repository.
 - Alerts and notifications to proactively manage your obligations.

Labour Compliance Automation Software

- The Labor Compliance automation assists in the filing of Returns, Challans, Registers for various Payroll, Shops & Establishment, Factory & CLRA related Compliances covering all states and Union Territories.
- This workflow-based and role-based management tool, offered through our technology partner, offers real time legal updates.
- The software has features like Templated Forms, Smart Dashboard, Compliance Calendar, standard and on-demand Reporting Capabilities.

Secretarial Compliance Automation Software

- The Secretarial Compliance automation tool helps secretarial departments manage their secretarial duties efficiently through the tool.
- The software, provided through our technology partner, enables management of Board meetings, notices, agenda, attendance and minutes through the tool.
- The software has features like Smart Dashboard, Auto Generation of Records & Compliance Documents, Secretarial Rules, Compliance Status Reports, real time Legal Updates and more.

Whistleblowing Software

- This is a third-party ethics helpline which allows Employees, Dealers and Third-Parties to raise concerns regarding violations of the Company's Code-of-Conduct/ POSH and other policies.
- This web-based system, offered through our technology partner, enables reporting of issues through multiple channels and languages.
- The software helps to maintain a central repository of all concerns raised, tracking all cases from receipt to closure and provides management with periodic reports highlighting details.

Document Management Software

- Document Management software can manage any number of versions for a given compliance document / working file and supports 47 document types.
- Our software ensures review by the Superior before any approval.
- Our software is tamper proof as it does not allow any deletion or modification of any uploaded document.

Automation for Infosec and Privacy Compliance

- Riskpro offers through partner products automation in info-security and privacy monitoring and compliance.
- The tool enables companies to build, manage and scale information security in a single-pane-of-glass. Companies can track and patch vulnerabilities in real time, automate system testing and alerts and become and remain compliant.
- High level of automation of the work required for security, makes it easier and faster to comply with various standards such as SOC2, ISO27000, GDPR, HIPAA and PCI DSS.

Cyber Security Software

- We combine the power of Cyber Intelligence, Brand Monitoring, Attack Surface Monitoring, Infrastructure Monitoring and Supply Chain Intelligence to give context to our customers' digital risks.
- We help you detect to Source code leaks, Server credential leaks Wallet Scams, Board member credential leaks, 3rd Party Data leaks Business email compromise attacks, Dark Web conversations, Telegram Conversation Monitoring, Credit/Debit Card leaks, Fake social media profiles, Fake Mobile Applications, Phishing campaigns etc.

Our Service Verticals

Trainings

Recruitment

Risk Training

- Riskpro is a leading Risk Management Training Company and has conducted 50+ trainings which include Open House programs across major metros and in house trainings to major Corporates, BFSI Cos.
- We have a variety of training programs across Info Security, Credit, Basel, ERM, Governance, BCM etc.
- Riskpro is a Corporate Entity with expert Trainers and our programs are cost effective compared to most companies.

ERM Training

- Riskpro regularly conducts trainings on ERM and Operational Risk across various cities as two days training.
- The course provides participants the understanding of risk management concepts and provides them with practical tools and methods required for implementation framework.
- ERM Trainings are also offered as in House Trainings for Companies.

Personal Data Protection Awareness Training

- PDP training helps your staff and their need to be aware of the risks involved in processing personal data and how to mitigate those risks.
- We provide Online or in-person trainings on regulatory requirements of the PDP Bill.
- We highlight the importance of their duty while handling personal/ sensitive data.

Fraud Risk Training

- Riskpro has conducted both open and inhouse programs for major PSU, Corporates and BFSI clients.
- We conduct one to three days program for Fraud Risk Training.
- We provide in-depth understanding of fraud schemes, fraud prevention measures, etc.

ISO 31000 Training

- Riskpro regularly conducts trainings on ISO 31000 across various cities as two days training.
- The course provides participants the understanding of risk management concepts and provides them with practical tools and methods required for implementation framework.
- This is an instructor led course designed to provide a practical understanding of risk management.

Cyber Security Training

- Riskpro provides training on awareness on Cyber security risk trends, types or controls and make them aware of their responsibilities in relation to fraud prevention.
- We provide training on Vendor Awareness Programs on information security.
- We provide quarterly Information security risk assessments and Annual IS Audits are conducted by experienced professionals.

Anti bribery/ Corruption Training

- Riskpro provides 1-2 hours / upto 15-16 hours FCPA / Anti Bribery training.
- We help with FCPA Overview and Compliance Requirements like the law's key Anti-Bribery and Accounting Provisions, how to avoid FCPA risk and reputational harm etc.
- We provide training regarding ISO 37001 – Anti Bribery Management Systems-Important Framework elements.
- We help with the Assessment and Certification.

AML Training

- We have the most successful programs across Chennai, Mumbai, Bangalore and Pune.
- We conduct 1-2 hrs / 1 to 3 days training on AML, KYC, Terrorist Financing, Trade Based ML and Customer profile covering the following aspects:
 - Introduction and emerging trends in AML.
 - Customer profiling and high risk customers.
 - Designing an effective AML framework.
 - Suspicious transactions and detection.

Operational/ Credit Risk Training

- Riskpro conducts 1-2 hours / one to three days program on Operational Risk.
- We conduct foundational training which can be designed and rolled out across the Company.
- We have four effective programs for Credit Risk:
 - Credit risk management for Credit Risk Analysts
 - Credit risk management workshop for Relationship Managers
 - Senior Management course on Credit Strategy
 - Risk Management program for Branch Managers.

ISO 27001 Training (Information Security Awareness)

- ISO 27001 Information Security Awareness Training is a vital investment for organizations seeking to fortify their information security posture.
- It highlights the essentials of information security, including the key concepts of confidentiality, integrity, and availability, as well as the organization's specific policies and procedures.
- Participants learn to recognize and respond to potential threats and vulnerabilities, understand data protection regulations, and adopt best practices for maintaining security.

Board Training

SEBI wants higher governance standard among listed companies as per SEBI LODR, on the other hand, most of the BFSIs have fiduciary responsibilities towards their customers / investors / depositors.

Hence, training of Board members, Trustees and specially independent directors are very important to make them aware of the following :

- Regulations affecting the company
- Regulatory expectations in the last few months or year
- Basic checklist of things to be taken care
